Marking color: black print on yellow sleeve

### Specifications

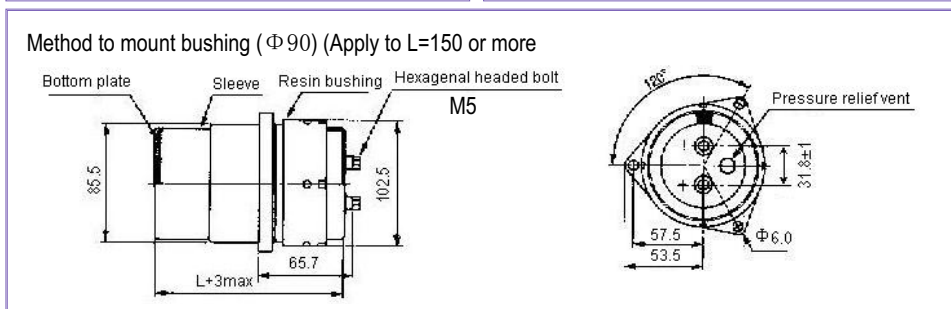

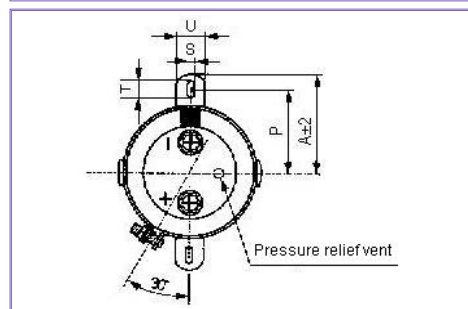

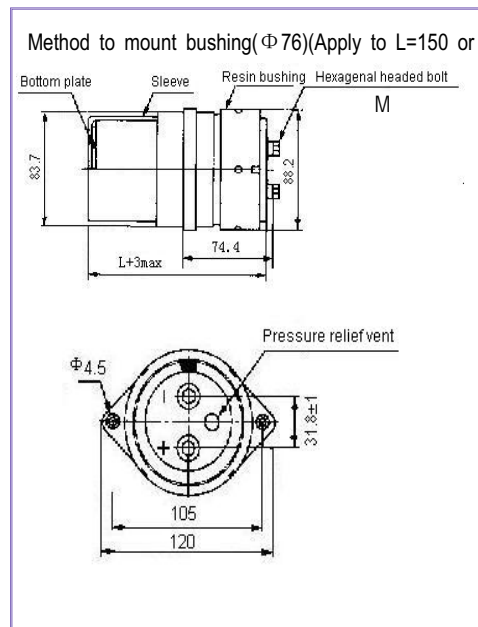

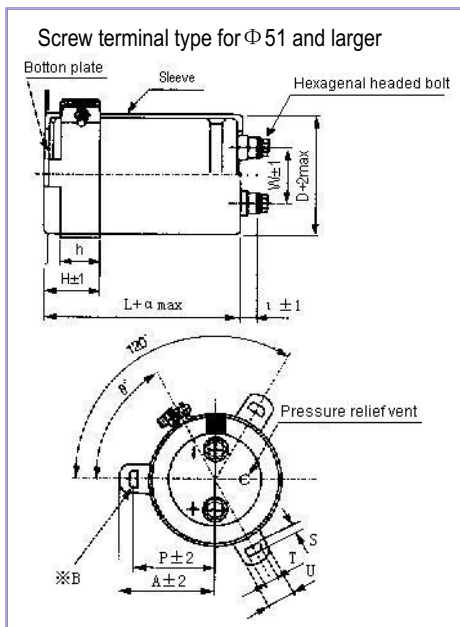

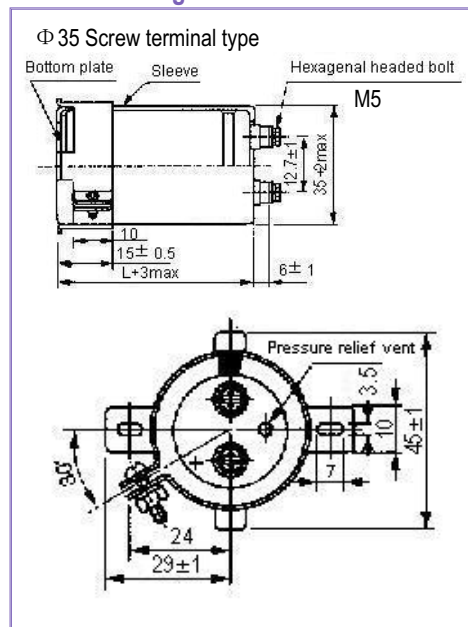

No.	Item	Performance																																																																																																																																
1	Temperature range(°C )	-40 to +105 (10 ~ 100V) -25 to +105 (160 ~ 500V)																																																																																																																																
2	Leakage current( μ A)	$\sqrt{CV}$ Less than 3 μ A or 5mA (after five minutes) C: Rated Capacitance( μ F); V: Rated voltage(V) 20°C																																																																																																																																
3	Capacitance tolerance (%)	±20 (20°C , 120Hz)
