Single

 $V_{GS} = 5.0 V$

- Surface-mount
- Available in tape and reel
- Dynamic dV/dt rating
- · Repetitive avalanche rated
- Logic level gate drive
- R_{DS(on)} specified at V_{GS} = 4 V and 5 V
- 175 °C operating temperature
- · Material categorization: for definitions of compliance please see www.vishay.com/doc?99912

Note

This datasheet provides information about parts that are RoHS-compliant and / or parts that are non RoHS-compliant. For example, parts with lead (Pb) terminations are not RoHS-compliant. Please see the information / tables in this datasheet for details

DESCRIPTION

Third generation power MOSFETs from Vishay provide the designer with the best combination of fast switching, ruggedized device design, low on-resistance and cost-effectiveness.

The D²PAK (TO-263) is a surface-mount power package capable of accommodating die sizes up to HEX-4. It provides the highest power capability and the lowest possible on resistance in any existing surface-mount package. The D²PAK (TO-263) is suitable for high current applications because of its low internal connection resistance and can dissipate up to 2.0 W in a typical surface mount application.

| ORDERING INFORMATION | | | | | |
|---------------------------------|-----------------------------|--|--|--|--|
| Package | D ² PAK (TO-263) | | | | |
| Lead (Pb)-free and Halogen-free | SiHL530STRR-GE3a | | | | |
| Lead (Pb)-free | IRL530STRRPbF ^a | | | | |

Note

a. See device orientation

| PARAMETER | SYMBOL | LIMIT | UNIT | | |
|--|---|-----------------------------------|------------------|----|--|
| Drain-Source Voltage | V _{DS} | 100 | - V | | |
| Gate-Source Voltage | V _{GS} | ± 10 | | | |
| Continuous Drain Current | V_{GS} at 5 V $T_C = 25 \degree C$ $T_C = 100 \degree C$ | | 15 | | |
| Continuous Drain Current | V_{GS} at 5 V $T_C = 100 \text{ °C}$ | ID | 11 | А | |
| Pulsed Drain Current ^a | | I _{DM} | 60 | 1 | |
| Linear Derating Factor | | 0.59 | — W/°C | | |
| Linear Derating Factor (PCB Mount) ^e | | 0.025 | | | |

Α

Notes

1. Dimensioning and tolerancing per ASME Y14.5M-1994.

2. Dimensions are shown in millimeters (inches).

3. Dimension D and E do not include mold flash. Mold flash shall not exceed 0.127 mm (0.005") per side. These dimensions are measured at the outmost extremes of the plastic body at datum A.

4. Thermal PAD contour optional within dimension E, L1, D1 and E1.

5. Dimension b1 and c1 apply to base metal only.

6. Datum A and B to be determined at datum plane H.

7. Outline conforms to JEDEC outline to TO-263AB.

Disclaimer

ALL PRODUCT, PRODUCT SPECIFICATIONS AND DATA ARE SUBJECT TO CHANGE WITHOUT NOTICE TO IMPROVE RELIABILITY, FUNCTION OR DESIGN OR OTHERWISE.

Vishay Intertechnology, Inc., its affiliates, agents, and employees, and all persons acting on its or their behalf (collectively, "Vishay"), disclaim any and all liability for any errors, inaccuracies or incompleteness contained in any datasheet or in any other disclosure relating to any product.

Vishay makes no warranty, representation or guarantee regarding the suitability of the products for any particular purpose or the continuing production of any product. To the maximum extent permitted by applicable law, Vishay disclaims (i) any and all liability arising out of the application or use of any product, (ii) any and all liability, including without limitation special, consequential or incidental damages, and (iii) any and all implied warranties, including warranties of fitness for particular purpose, non-infringement and merchantability.

Statements regarding the suitability of products for certain types of applications are based on Vishay's knowledge of typical requirements that are often placed on Vishay products in generic applications. Such statements are not binding statements about the suitability of products for a particular application. It is the customer's responsibility to validate that a particular product with the properties described in the product specification is suitable for use in a particular application. Parameters provided in datasheets and / or specifications may vary in different applications and performance may vary over time. All operating parameters, including typical parameters, must be validated for each customer application by the customer's technical experts. Product specifications do not expand or otherwise modify Vishay's terms and conditions of purchase, including but not limited to the warranty expressed therein.
